ICEO & SI 2013

International Conference on Earth Observations & Societal Impacts

1. Purpose :

Exhibitors are cordially invited to join the International Conference on Earth Observations & Societal Impacts (ICEO&SI 2013) held on June 23~25, 2013, at National Cheng Kung University (NCKU) in Tainan, Taiwan. This conference is expected to bring together over 200 researchers, scientists, engineers, and students from around the world to review the latest issues and studies utilizing monitoring devices as well as innovated technologies for observations on Natural Disaster, Health, Energy, Climate Change, Ecosystem, Agriculture, Biodiversity, Water Resources, Meteorology, and their related Industries. Exhibitors will have the privilege opportunities to meet the governmental officials, educators, researchers, scientific organizations, as well as other professional enterprises; to create their contact network with the conference delegates and to obtain the innovative knowledge in the Earth observation works. Besides sponsoring the ICEO&SI 2013 conference, the exhibitors will get the marvelous timing in introducing their companies' products as well as earn their own tremendous market exposures.
